Why the Discovery Preserver Plan?

A structurally superior retirement solution

Our Preserver Plans give you more than conventional retirement solutions. You get rewarded with boosts to your investment for investing longer, and investing more. You also get increased global exposure, and enhanced flexibility at retirement.

When you invest for longer, we reward you with boosts to your investment

You can choose how you'd like the boost to grow and how you want to use your boost when you retire or you can use the boost to pay zero administration fees (known as the Boost Accelerator).

Choose where you want to invest your boost

- **Invest your boost globally in dollars:** The boost is offered through the Fund's appointed administrator, therefore you can invest it in a range of multi-asset risk-profiled Cogence Global Funds, advised by BlackRock, one of the world's leading asset managers. This gives you more offshore exposure than any other retirement solution.
- You can also choose to invest your boost in the same funds as your investment.

Choose how to use your boost when you retire

- Add the boost into your retirement investment to increase your retirement savings
- Invest the boost into a Discovery Global Endowment and keep funding your retirement in hard currency
- Take the boost in cash for extra liquidity in retirement.

Different boost percentages apply depending on the term you invest for and the portion you invest in qualifying funds. The insurer reserves the right to review and change the qualifying requirements for boosts at any time. If the boost is linked to a global portfolio, additional fees may be charged in some cases for hedging global markets. Product rules, terms and conditions apply.

Invest for longer and more

With our preserver plans, you can get boosts added to your investment for investing longer and investing more. Your boosts are held separately to your investment and will grow with your investment in line with the growth of your selected funds for your boost.
