By activating the HealthyFood benefit, you will get up to 10% back at both primary in-store and online HealthyFood partners.

How much can you get back in rewards each month?

Vitality Health rewards

Your HealthyFood spend that you get rewarded on the Vitality Health programme is limited to the number of Vitality Health points that the membership has for the year to date. The starting point for working out your reward is the number of Vitality points that you have. Your reward is further subject to our payout rules detailed below.

The amount you can receive in Vitality Health rewards each month depends on your membership type. A single membership is one that includes only one member, known as the principal member. In contrast, a family membership includes multiple members: the principal member, a spouse, adult dependants, and child dependants aged 18 years and older.

Your Vitality Health reward is based on the following:

- Your monthly qualifying spend limit for a single membership is R2,500.
- Your monthly qualifying spend limit members on a family membership is R5,000.

- The process for calculating rewards for a family membership is that each qualifying person will contribute to the overall monthly cap on the membership.
- Transactions will be processed in the following order: first for the main member, followed by the spouse, adult dependants, and then child dependants over the age of 18 years.
- Among adult dependants and child dependants over 18, priority is based on their membership join date. Transactions by these members who joined earlier take precedence.
- Each member's transactions will be prioritized first at their primary in-store partner, then primary online partner, followed by their secondary in-store partner, and finally their secondary online partner.
- Your reward calculation is based on the date we receive the transaction file from the partner. This may be different to the date on which you made the purchase.

Vitality Money rewards

Your Vitality Money rewards are calculated independently of your Vitality Health rewards. The amount you can receive in Vitality Money rewards each month depends on your membership type. A single membership is one that includes the principal member or an adult dependant or a child dependant 18 years and older each with their own qualifying Discovery Bank product. In contrast, a family membership includes the principal member and the spouse each with a qualifying Discovery Bank product.

To earn your Vitality Money reward, make sure you pay for your purchases from Checkers and Woolworths using your qualifying Discovery Bank credit card.

Your Vitality Money reward is based on the following:

- The monthly qualifying spend limit for a family is R5,000 for both the main member and spouse, both having a qualifying Discovery Bank credit card that they collectively spend on HealthyFood items.
- Transactions will be processed in the following order: first for the main member and followed by the spouse, with each member's transactions prioritized first at their primary in-store partner, then primary online partner.
- When an adult dependant or child dependant 18 years or older on the Vitality Health programme are qualifying primary Discovery Bank account holders and have activated the HealthyFood benefit, they will earn Vitality Money rewards at their boosted Vitality Money percentage on a maximum of R2,500 that they spend on HealthyFood items when they pay for those HealthyFood purchases using their qualifying Discovery Bank credit card.
- The monthly qualifying spend limit for a single membership is R2,500.
- Your reward calculation is based on the date we receive the transaction file from the partner. This may be different to the date on which you made the purchase.

Members will receive their combined share of rewards from both the Vitality Health and Vitality Money programmes as Discovery Miles allocated into their own Discovery Miles Account by the 15th of the following month, provided that the main member on the Vitality Health programme has not revoked consent for this to occur.

How are your rewards calculated?

- You will see two HealthyFood reward percentages in your Discovery Bank app: your current month's earned reward percentage as well as your dynamic reward percentage for the next month.
- Your dynamic reward percentage on the last day of the current month will become your earned percentage from the first day of the next month.
- Your current month's earned reward percentage is the rate at which you will earn rewards on qualifying HealthyFood purchases made in the current calendar month. This lets you make informed HealthyFood purchase decisions.
- Note that your earned percentage may change on the first few days of the month if there are still pending credit card transactions clearing from the previous month. These are transactions that say 'Pending' in your credit card transaction list in the Discovery Bank app.
- You will be able to monitor your dynamic reward percentage in the Discovery Bank app and control your next month's reward by improving your Vitality Money status, completing your Vitality Health assessments, or increasing your monthly qualifying Discovery Bank credit card spend.
- Your rewards will be based on qualifying HealthyFood purchases made during the current calendar month, based on your earned reward percentage and will be allocated to you in the first two weeks of the following month.
- Your current month's earned percentage is based on:
 - The validity of your Vitality Health assessments as at the last day of the previous calendar month.
 - The Discovery Bank products you hold as at the last day of the previous calendar month.
 - Your Vitality Money status as at the last day of the previous calendar month; and
 - Your accumulated monthly qualifying spend on your Discovery Bank credit card for the previous calendar month.
- Your dynamic reward percentage for next month changes throughout the current month based on:

- The completion status of your Vitality Health assessments;
- The Discovery Bank products you hold;
- Your current Vitality Money status; and
- Your accumulated qualifying monthly spend on your Discovery Bank credit card. You will be able to see your current month's earned reward percentage in the Discovery app, Discovery Bank app and on the Discovery website.

[See the rewards percentages guide](#) applicable to your Discovery Bank credit card colour to view the HealthyFood earn rate calculation tables.

How are your rewards paid?

- A HealthyFood reward will be paid out to you every monthly reward payout cycle.
- Your monthly reward cycle has been aligned to a calendar month cycle.
- Rewards will be allocated by the 15th of the following calendar month for transactions made in the current calendar month.
- Your HealthyFood rewards will be allocated to you in Discovery Miles and paid into your Discovery Miles account.
- Any delayed Discovery Miles allocations do not earn interest.
- When shopping at your HealthyFood partner, you will immediately see the base Discovery Miles earned in your Discovery Miles account on the Discovery Bank app once the transaction has cleared. The Discovery Miles earned through the HealthyFood benefit will be earned cumulatively and allocated into your Discovery Miles account as a single allocation during your monthly reward cycle.
- Your membership on the Vitality Health and Vitality Money programmes needs to be active at time of allocation to still be eligible for your HealthyFood reward.
- Should we receive a late transaction (within 12 months from the date of the transaction), we will calculate the late transaction in the month in which we received it. In the late transaction calculation, we will consider the limits that should have been applied in the month in which the transaction first occurred.
- We do not generally send reward statements. If you need a statement, please contact Vitality to request one.

How do you earn Vitality Health points for purchasing HealthyFood?

The Vitality points you earn for purchasing HealthyFoods are based on the following:

- You can earn 20 Vitality points for every HealthyFood item that you buy at Checkers and Woolworths.
- We will deduct 20 points for every unhealthy item that you buy.

- You will never accumulate a negative point value from a transaction and the least number of points that you can earn from a transaction is zero.
- Each membership can earn a maximum of 1,000 Vitality points from HealthyFood purchases per month, up to a total of 12,000 per year.
- Vitality points from HealthyFood purchases accumulate towards the membership's total.
- The allocation of points to members on a family membership follows the same process used for processing transactions to calculate rewards:
Vitality points earned will be allocated to members starting with the main member and followed by the spouse, adult dependants, and child dependants over the age of 18 years.

How do we classify HealthyFood items?

We apply selection criteria to each food group and segment foods into three categories, with qualifying healthy foods earning rewards and unhealthy foods resulting in a penalty.

Healthy foods qualify for HealthyFood rewards because they include a variety of whole or minimally processed foods that are nutrient dense meaning they are rich in vitamins, minerals and other nutrients important to our health.

Neutral foods do not earn HealthyFood rewards or incur penalties when purchased. However, their role in a healthy eating pattern depends on individual factors like age and physical activity levels.

Unhealthy foods result in a penalty when purchased as they are high in salt, Added sugars and saturated fats. Regular consumption of these foods can contribute to weight gain and increase risk of chronic conditions, such as type 2 diabetes, heart disease and cancers. Examples include processed snacks, sugary drinks (including fruit juice) and food, salty foods (snacks, seasoning, spreads) and processed meats (bacon, sausages).

Links to the latest Checkers and Woolworths HealthyFood catalogues will be included in the final version of this benefit guide.

- Products listed in these catalogues can change at any time.
- Look out for the Vitality HealthyFood stamp on shelf labels in-store to identify HealthyFood items and all HealthyFood items are identified as "VIT" or "V" on your till slips.
- Note that the nutrition principles and qualifying foods outlined in the HealthyFood catalogues take precedence over the information provided on the partners' websites, in-store shelf labels and your payment receipts.
- Products listed in the catalogues are subject to seasonal and supplier availability and may only be available at certain Checkers and Woolworths stores.
- Vitality bases its HealthyFood principles on the most current policies and guidelines from local and international bodies. The product selection process for the HealthyFood benefit is

constantly under review and subject to change, considering scientific and industry developments.

- We will not accept a bank statement in place of a receipt.

What tax is there on rewards?

You might have a duty to pay tax on the rewards that you earn. It is your responsibility to speak to a tax practitioner to get advice in this regard. We are not responsible for any consequences if you fail to ask a tax practitioner for advice or if you fail to pay the applicable tax.
